SECTION VI - Health Hazard Data

Route(s) of entry Inhalation? Yes Skin? No Ingestion? No

Health Hazards (Acute and Chronic): Prolonged exposure to respirable crystalline quartz may
Cause delayed (chronic) lung injury (silicosis).

Carcinogenicity: NTP? NO IARC Monographs)? Yes OSHA Regulated? NO
IARC concludes that there is sufficient evidence for the carcinogenicity of crystalline silica
To experimental animals, and that there is limited evidence of the carcinogenicity to humans.
Medical Conditions Generally Aggravated by Exposure: Respiratory and pulmonary disorders.
Smoking aggravates the effects of exposure.

Emergency and First Aid Procedures: Eyes - Irrigate with water. If irritation persists, see
Physician. For gross inhalation, remove victim to fresh air, give artificial respiration as
needed, seek medical attention as needed.
